SUMMARY

Human-Computer Interaction student with hands-on experience in UX/UI design, user research, and usability testing. Skilled in creating wireframes, prototypes, and high-fidelity designs using Figma, translating user insights into actionable design solutions that improve usability and overall user experience. Strong collaborative and problem-solving skills with a portfolio of projects demonstrating end-to-end design thinking.

WORK EXPERIENCE

UI/UX Design Intern

October 2023 - February 2024 | Excelencia iTech Consulting Pvt. Ltd.,

Chennai, India

- Designed internal digital products using Figma, creating wireframes, user flows, and high-fidelity UI screens
- Conducted user research and usability testing to gather feedback and identify pain points
- Translated insights into design improvements that enhanced usability and user experience
- Collaborated with stakeholders and senior team members to iterate and refine design solutions
- Created sketches and prototypes to effectively communicate design concepts
